Software Developer and Graduate Engineer Trainee at SMAAC Net Solutions with practical experience in software development, backend architectures, relational databases, enterprise ERP solutions, and business intelligence. Skilled in software engineering using Python, SQL, HTML, CSS, and Flask, with hands-on capabilities in Power BI analytics, Star Schema modeling, and AI/ML architectures.

TECHNICAL SKILLS

- **Languages & Web:** Python, SQL (HackerRank Gold Badge), HTML5, CSS3, JavaScript
- **Backend & Systems:** Flask, REST APIs, Enterprise ERP (PEB Workflows), JSON, System Architecture
- **Databases & Storage:** MySQL, PostgreSQL, SQLite, Star Schema Design, Normalized Data Modeling
- **Data Analytics & BI:** Power BI, Microsoft Excel (Pivot Tables, VLOOKUP), DAX, Power Query, Pandas, NumPy
- **AI & Machine Learning:** LLMs, RAG, TensorFlow, OpenCV, YOLOv3, Whisper, Ollama
- **Tools & Platforms:** Git, GitHub, VS Code, Linux, ReportLab, Streamlit, Plotly

PROFESSIONAL EXPERIENCE

Graduate Engineer Trainee (GET) — Smaac Net Solutions Pvt. Ltd. Sep 2026 – Present | Gurgaon, Haryana
- Contributing to software development lifecycles focusing on Python, SQL, MySQL, HTML, CSS, and Flask.
- Developing enterprise ERP solutions and business applications in the Pre-Engineered Building (PEB) industry.
- Designing backend logic, normalized database schemas, and structured data processing pipelines.
- Translating technical business specifications into scalable software modules and maintaining database integrity.

Data Analyst — AtliQ Technologies Nov 2025 – Dec 2025 | Bengaluru (Remote)
- Delivered end-to-end Power BI and SQL solutions aligned with real-world business requirements in insurance BI.
- Built 3+ interactive Power BI dashboards covering revenue, customer growth, sales modes, and policy segmentation.
- Designed and validated 20+ DAX measures (MoM growth, revenue KPIs, customer retention), improving metric accuracy.
- Cleaned, transformed, and modeled datasets across multiple fact & dimension tables, reducing reporting errors by 25%.

Data Analyst Intern — SkillCred Jun 2024 – Jul 2024 | Pune (Remote)
- Analyzed large transactional business datasets (50K+ records) using Advanced Excel, Pivot Tables, and visual reporting.
- Built 3 interactive Excel dashboards for customer and performance analysis, reducing recurring analysis turnaround by ~25%.
- Applied VLOOKUP, data validation, and ETL cleansing to deliver customer segmentation insights for strategic decisions.

Project Manager & Team Lead — Smart India Hackathon & Innovative Bharat 2023 – 2024 | Mathura, UP
- Led a 6-member team delivering data-driven solutions for real-world government problem statements in national hackathons.
- Directed industrial sensor telemetry analytics at Innovative Bharat, designing structured data pipelines and reports.

KEY PROJECTS

RAG Based AI Teaching Assistant | Python, RAG, Whisper, Ollama, Vector DB GITHUB ↗
- Built a RAG teaching assistant transcribing lecture videos via Whisper and indexing semantic chunks in Ollama.
- Implemented context-aware query retrieval returning answers with exact timestamps for rapid video explanation lookup.

Real-Time Video Analysis System | Python, Flask, OpenCV, YOLOv3, TensorFlow GITHUB ↗
- Engineered real-time computer vision system performing concurrent human detection, vehicle tracking, and emotion recognition.
- Integrated deep learning models with an interactive Flask web dashboard displaying live bounding boxes.

Sales & Customer Performance Analytics | SQL, MySQL, CTEs, Window Functions GITHUB ↗
- Evaluated 100K+ sales transactions across customers and products; authored 20+ complex SQL queries using CTEs and joins.
- Conducted customer ranking and variance calculations to identify sales growth patterns and market opportunities.

Enterprise Business Insights 360 | Power BI, DAX, Star Schema, Power Query GITHUB ↗
- Architected an enterprise Star Schema model and built interactive Power BI KPI dashboards across Finance and Sales.
- Engineered advanced DAX measures for dynamic time-intelligence and multi-dimensional performance tracking.

CERTIFICATIONS & ACHIEVEMENTS

- **HackerRank SQL Gold Badge** | **1st Runner-Up — Data Analytics & Visualization Hackathon** (Smart Agrofarm)
- **SQL (Intermediate)**, **Problem Solving (Intermediate)**, **Problem Solving (Basic)** & **Python (Basic)** — HackerRank
- **Power BI Data Analytics 3.0** — Codebasics | **Data Science & Analytics** — Cognitive Class
- **Applied Machine Learning in Python** — Coursera | **Data Analytics with Python** — NPTEL

EDUCATION

B.Tech in Computer Science and Engineering (AI & ML) — GLA University, Mathura CGPA: 8.3 / 10 | 2023 – 2027
Class XII (Senior Secondary) — CBSE Board Percentage: 93% | 2022
Class X (Secondary) — CBSE Board Percentage: 95% | 2020
