KRISHNA TANWAR

Hometown: Kosi Kalan, Mathura, Uttar Pradesh | Current Location: Gurgaon, Haryana

+91 6395005796 kstanwar0000@gmail.com LinkedIn GitHub

Software Developer and Graduate Engineer Trainee with hands-on experience in software development using Python, SQL, HTML, CSS, and JavaScript. Experienced in building backend services, relational database schemas, ETL pipelines, interactive Power BI dashboards, and AI-powered solutions using RAG, computer vision, and large language models.

TECHNICAL SKILLS

- **Languages & Web:** Python, SQL, JavaScript, HTML5, CSS3
- **Backend & Frameworks:** Flask, REST APIs, React, JSON, SQLite
- **Databases & Storage:** MySQL, PostgreSQL, SQLite, Star Schema Design
- **Data Analytics & BI:** Microsoft Excel, Power BI, NumPy, Pandas, DAX, Power Query
- **AI & Machine Learning:** LLMs, RAG, TensorFlow, OpenCV, YOLOv3, Whisper, Ollama
- **Tools & Platforms:** Git, GitHub, VS Code, ReportLab, Streamlit, Linux

PROFESSIONAL EXPERIENCE

Graduate Engineer Trainee — **SMAAC Net Solutions** Nov 2024 – Present | Gurgaon, Haryana

- Contributing to software development lifecycles focusing on Python, SQL, HTML, CSS, and JavaScript.
- Developing backend logic, database schemas, and data pipelines for enterprise-grade applications.
- Collaborating on engineering workflows, applying clean coding standards, and participating in peer code reviews.

Data Analyst Intern — **AtliQ Technologies** Nov 2025 – Feb 2026 | India

- Performed data validation, cleansing, and normalization to maintain reporting accuracy.
- Developed interactive Power BI dashboards and analytical reports for business decision-making.
- Worked with SQL and Excel to support reporting and data analysis workflows.
- Automated repetitive data preparation steps to reduce manual effort.

AI & Analytics Intern — **SkillCred** May 2025 – Jul 2025 | Remote

- Built an AI-powered meeting transcription and summarization tool using Whisper and Ollama.
- Developed computer vision pipelines using OpenCV and YOLOv3 for object detection tasks.
- Designed RAG workflows for document-based question-answering with LLMs.
- Preprocessed text, audio, and visual data for model training and evaluation.

KEY PROJECTS

RAG Based AI Teaching Assistant | Python, RAG, Whisper, Ollama, Vector DB **GITHUB ↗**

- Built a RAG teaching assistant transcribing lecture videos via Whisper and indexing semantic chunks in Ollama.
- Retrieved timestamped answers via local LLMs to enable instant concept search across video recordings.

Real-Time Video Analysis System | Python, Flask, OpenCV, YOLOv3, TensorFlow **GITHUB ↗**

- Real-time computer vision system performing concurrent human, vehicle, and emotion detection on live video.

AI Travel & Expense Analyzer | Python, Streamlit, Pandas, Matplotlib, OpenAI **GITHUB ↗**

- Categorized expenses from CSV data with LLM-generated spending insights, budget summaries, and anomaly detection.

Automated Billing & Invoicing System | Python, Tkinter, SQLite, ReportLab **GITHUB ↗**

- Desktop GUI application with dynamic PDF invoice generation, inventory tracking, and persistent SQLite database.

EDUCATION

B.Tech in Computer Science and Engineering (AI & ML) Sep 2023 – Present (Exp. 2027)

GLA University, Mathura | ***CGPA: 8.3 / 10***

Higher Secondary (Class XII, TSBIE) 2021 – 2023

Sri Chaitanya Junior College, Hyderabad | *Percentage:* ***93%***

High School (Class X, CBSE) 2020 – 2021

A.K. Public School, Mathura | *Percentage:* ***95%***

CERTIFICATIONS

- **Applied Machine Learning in Python** — Coursera | **Data Analytics with Python** — NPTEL
- **Python for Data Science** — Cognitive Class | **Power BI Data Analytics 3.0** — Codebasics
- **SQL (Intermediate)** & **Python (Basic)** — HackerRank
